

Providing support to persons with disabilities throughout their lifespan so they can achieve their highest level of independence in their community.

Community Group Can Help Make Appointments for the COVID-19 Vaccine

WGIRLS can help people with disabilities and seniors make that critical first appointment for the COVID-19 vaccine! This group is available to support those who do not have anyone else to help them.

The home page has a link to request assistance. There is a form to be completed. If individuals do not have computer access, the DAWNcil IL team can assist with filling out the form on their behalf, and then someone from the volunteer group will call the individual to follow up and finalize the process. The form does not ask for Social Security or health insurance information, just basic information such as name, address, and date of birth.
